

WORKING TOGETHER  
FOR A STRONG GOLDEN AMERICA

## ABOUT THE CONFERENCE

**JOIN US** in Washington, DC this  
**September 28 and 29** for the  
**National Hispanic Council on Aging's**  
**2010 Annual Conference**

Things are changing fast in our country and the world. The power of a small but thoughtful and determined group of people to influence the course of events by working together **has actually never been greater.**

Those of us who support our nation's community of Hispanic older adults – whether as activist seniors ourselves, or as policy-makers, providers of services and products, healthcare professionals, and family caregivers have an unprecedented chance this fall to learn, to plan, and to make things happen. In coming together in the nation's capital we can insure that the protection, empowerment, and dignity of our seniors **remain a national priority.**

On **September 28 and 29** you'll find out how much is actually within our grasp – and how to make sure that positive change really happens, on behalf of the Hispanic elderly both nationally and in your own community.

WORKING TOGETHER  
FOR A STRONG GOLDEN AMERICA

*Join us* in Washington, DC this September 28 and 29 for the National Hispanic Council on Aging's 2010 Annual Conference, to take place at the lovely L'Enfant Plaza Hotel. You'll be amazed at how much new information, new strategies, and new solutions can be packed into two days.

Come for lively dialogue, the development of action plans, coalition-building, and top-level policy briefings. Find out the latest on healthcare and finance reform, and on the future of Social Security. Don't miss your chance to get ECET: Empowerment and Civic Engagement Training. And enjoy the camaraderie of gala luncheons and the annual Awards Dinner.

NHCOA's Annual Conference is always the premier event on Hispanic aging issues, and the "can't miss" gathering of greatest **practical** value to professionals, community leaders, healthcare advocates, and all others who serve and are inspired by our *abuelos*.
